

Extruder Rupture Discs

Extruder Rupture Discs

[MPI - Extruder Rupture Discs \(pdf\)](#)

- Inconel End Disc
- 750oF (400oC) Rating
- 5% Accuracy
- Ranges : 1500, 2500, 3500, 5500, 6500, 7500, 8500, 9500, 10500psi
- Standard Thread (1/2-20UNF)

OPTIONS

- Custom Threads, Tip Designs

Description

MPI extruder rupture discs are used for reliable economical pressure relief in plastic extruders. The Inconel Disc material ensures they will instantly rupture at a specific pressure over a wide temperature range.
