

Melt Pressure Transmitters

STANDARD FEATURES

- Interchangeable with Competitor's models
- Fluid filled system (or new pushrod design)
- 6pin Bayonet Connector
- 6" Stem with/without 18" Flex Hose
- 0.5% combined error
- 80% Output Calibration
- 750oF (400oC) Rating
- Ranges from 0-500 to 0-20,000psi
- Standard Diaphragm INCONEL

Melt Pressure Transmitters

MT - STANDARD TRANSMITTERS)

- * Mercury Filled for long term stability
- * 4-20mA output (opt 0-5,1-5,0-10VDC)
- * Optional Replaceable T/C J/K

MM - OEM TRANSDUCERS

- * Mercury Filled for long term stability
- * 4-20mA or 0-10VDC output
- * Optional Replaceable T/C J/K

MF - MERCURY FREE

- * Mercury-Free Filled System
- * 4-20mA output (opt 0-5,1-5,0-10VDC)
- * Optional Replaceable T/C J/K

MN - NARROW SPACE

- * Mercury Filled or optional Mercury-Free
- * 4-20mA output (opt 0-5,1-5,0-10VDC)
